NOTE FOR: DCI  
DDCI

SUBJECT: [redacted] Chairman, Military Economic  
Advisory Panel

25X1

1. Ivan came by the other day to "stay in touch" and noted that the members of the MEAP individually offer a great deal of talent. He was urging that should the Agency have any topic or issue that doesn't fit the specific charter of MEAP, it is quite conceivable that the proper expertise to address that problem rests with one or more individual members.

2. He noted that the Panel was bringing on board a gentleman by the name of [redacted] an expert in the banking field from Chase Manhattan. Ivan felt that [redacted] presence would give the Panel additional expertise, but more importantly offer the Agency an outside individual to turn to in the field of growing interest to the Agency but for which the Agency has little expertise.

3. I assured Ivan that I would pass on his generous offer to you both.
